

Happy 122nd Birthday to Chiropractic!

Chiropractic is the only health care system discovered and developed in America. On September 18th 1895, Dr. D.D. Palmer of Davenport, Iowa gave the first chiropractic adjustment.

His first patient was Harvey Lillard, a janitor who had been deaf from an accident years earlier. Dr. Palmer found a lump on Lillard's upper spine that presumed to be a spinal bone out of position. After several adjustments, Lillard could hear again, thus the amazing discovery of Chiropractic!!

Subluxations continue to be the root cause of spinal cord and nerve dysfunction and interference causing the body breakdown and disease. Subluxations are also found to be the number one cause of constant pain, illness, and disease today.

Join the millions of people who have found the amazing benefits of Chiropractic care. Call us today.

**Dr. Martin J. Rodgers, Dr. Bryan J. Rodgers, Dr. Luke Badman,
